

SA-15S1

SUPER AUDIO CD PLAYER

Enjoy reference quality CD playback or the full magnificence offered by the CD and SA-CD format. The new SA-15S1 is the successor to the highly acclaimed SA-14v.2 CD player. The cabinet is built in the new Marantz premium design without any visible screws, a heavy double layer chassis, a slightly blue illuminated front and noiseless LCD display. The quick and reliable working mechanism has a black surface to prevent any distortion of the laser light. For further sound improvements the CS4397 will be served with a high precision system clock to prevent any distortion from jitter. The output stage is built in current feedback topology with the HDAM modules offering a high bandwidth and fast signal handling needed for pure audiophile playback regardless the format. Enjoy the extraordinary sound quality of this exquisite component from the Marantz 15-series.
